

### **In the Specification**

Replace the paragraph beginning on page 59, line 17 with the following:

Table 2 shows an example of the data structure of Fig. 8 populated with example data. The columns of Table 2 correspond to those of Fig. 8. The data shown in Table 2 is all for the same property ID (ID=104). It will be understood that a complete data ~~structure~~ structure would have data for each property in the chain of properties, so that the method of Figs. 14-15 could be performed for any property in that chain.
